

NIHR FELLOWSHIP PROGRAMME: INFORMATION EVENT - SPRING 2020

Non-live, pre-recorded video presentations

Available from 29th April 2020

Are you planning to submit an application within the next 18 months to the NIHR/other national, competitive funding organisation to undertake a fellowship in applied health or social care research?

We have brought together a range of speakers to provide fellowship applicants (doctoral, clinical doctoral, post-doctoral/advanced) with essential information on how to progress their grant applications in the months leading up to submission. We are recording the speakers' presentations, for release on 29/4/20. Any questions for the presenters should be submitted by 6/5/20 (online form, a link will be provided). Answers will be returned by email.

Presentations

Working with the NIHR Research Design Service to develop your fellowship application

Dr Andrew Bateman, Director, NIHR Research Design Service, East of England

NIHR fellowships: a view from the panel *Professor Christi Deaton, Florence Nightingale Foundation Professor of Clinical Nursing Research, Cambridge Institute of Public Health*

Involving patients and members of the public in the design, conduct, dissemination

Tracey Johns, Public Involvement Lead, NIHR Research Design Service, East of England

Working with CRN Eastern pre- and post-funding

Ruth Hudson, Research Delivery Manager, NIHR Clinical Research Network (CRN) Eastern

Working with a clinical trials unit

Matthew Hammond, Deputy Director Norwich Clinical Trials Unit (CTU)

Tips from a NIHR postdoctoral research fellow
